Synopsis of Discussion Items:

Review 7 March 2005 Minutes

- The JAST reviewed and approved the 7 March 2005 Minutes.
- It was noted that due to conflicting schedules the JAST did not meet on 14 March.

New Ideas.

- No new scenario ideas were presented.

Status update of current ideas

- The Army RC JAST representative reported that the Army's Senior Review Group has dropped several RC candidate recommendations. Because no other MILDEP is participating, these CRs are no longer "joint CRs" and now involve only ARNG state owned properties vs. "military installations." Therefore, they will not be considered under BRAC.
- The Army RC JAST representative confirmed that the Army intends to submit the following four (4) scenario ideas as candidate recommendations: **A014, A019, A022, & A040.** (See 7 March 2005 minutes.)

- The Army representative reported the Army intends to consolidate RC recommendations by state, where practical. Therefore, JAST scenario ideas will be consolidate under new Army numbers (USA-XXXX) in the ISG Tracking Tool.
- The Navy JAST representative reported the Navy intends to withdraw **N019**; however, the Navy will follow up and provide confirmation.
- The USAF JAST representative requested the Army provide Manpower and FAC requirements for **A086 & A087** to enable the USAF to provide its supporting analysis.

Next steps

- JAST scenario ideas need to be finalized and submitted as Candidate Recommendations.
- JAST final report. Although final report format is not yet known, the JAST recommended the draft be written as soon as possible. The Army representative will take the lead in preparing, coordinating, and presenting draft report to the JAST in the near future.

Recommendations:

1. Reviews and updates. Recommend JAST members review all scenario ideas and provide updates to their appropriate JAST counterparts in the other Services and the Army representative.
2. Finalize all JAST recommendations.
3. Schedule status update briefing for BRAC Directors.
4. Meet next on 28 March 2005.
