Joint Action Scenario Team (JAST)

Update for BRAC Directors

25 February 2004

Joint Action Scenario Team (JAST)

Agenda

- JAST MVA update
- Way ahead

11 February IPR Taskers:

- ✓ 1. Finalize JAST Charter (Service to Service) to go out for coordination and signature.
2. JAST members will reconvene to work MVA methodology and report back to the BRAC Directors.

JAST Methodology

- MILDEPs select key operational related capacity questions from data call # 1 and quantify requirements
 - MILDEPs pass questions & requirements through the JAST to sister services
 - MILDEPs identify potential installations (based on specified questions and requirements from data call #1)
 - MILDEPs identify service specific MVA questions from data call #1 that must be addressed to sister services in data call #2
 - Potential installations are asked full set of MVA questions in data call #2 plus any needed MILDEP specific questions from data call #1
 - At completion of Data Call #2, each MILDEP conducts its MVA and assesses its own installations with other services potential installations
 - MILDEPs work possible solutions with sister Services to formulate potential Scenarios (JAST facilitates and monitors)
-

JAST Methodology

- MILDEPs select key operational related capacity questions from data call # 1 and quantify requirements

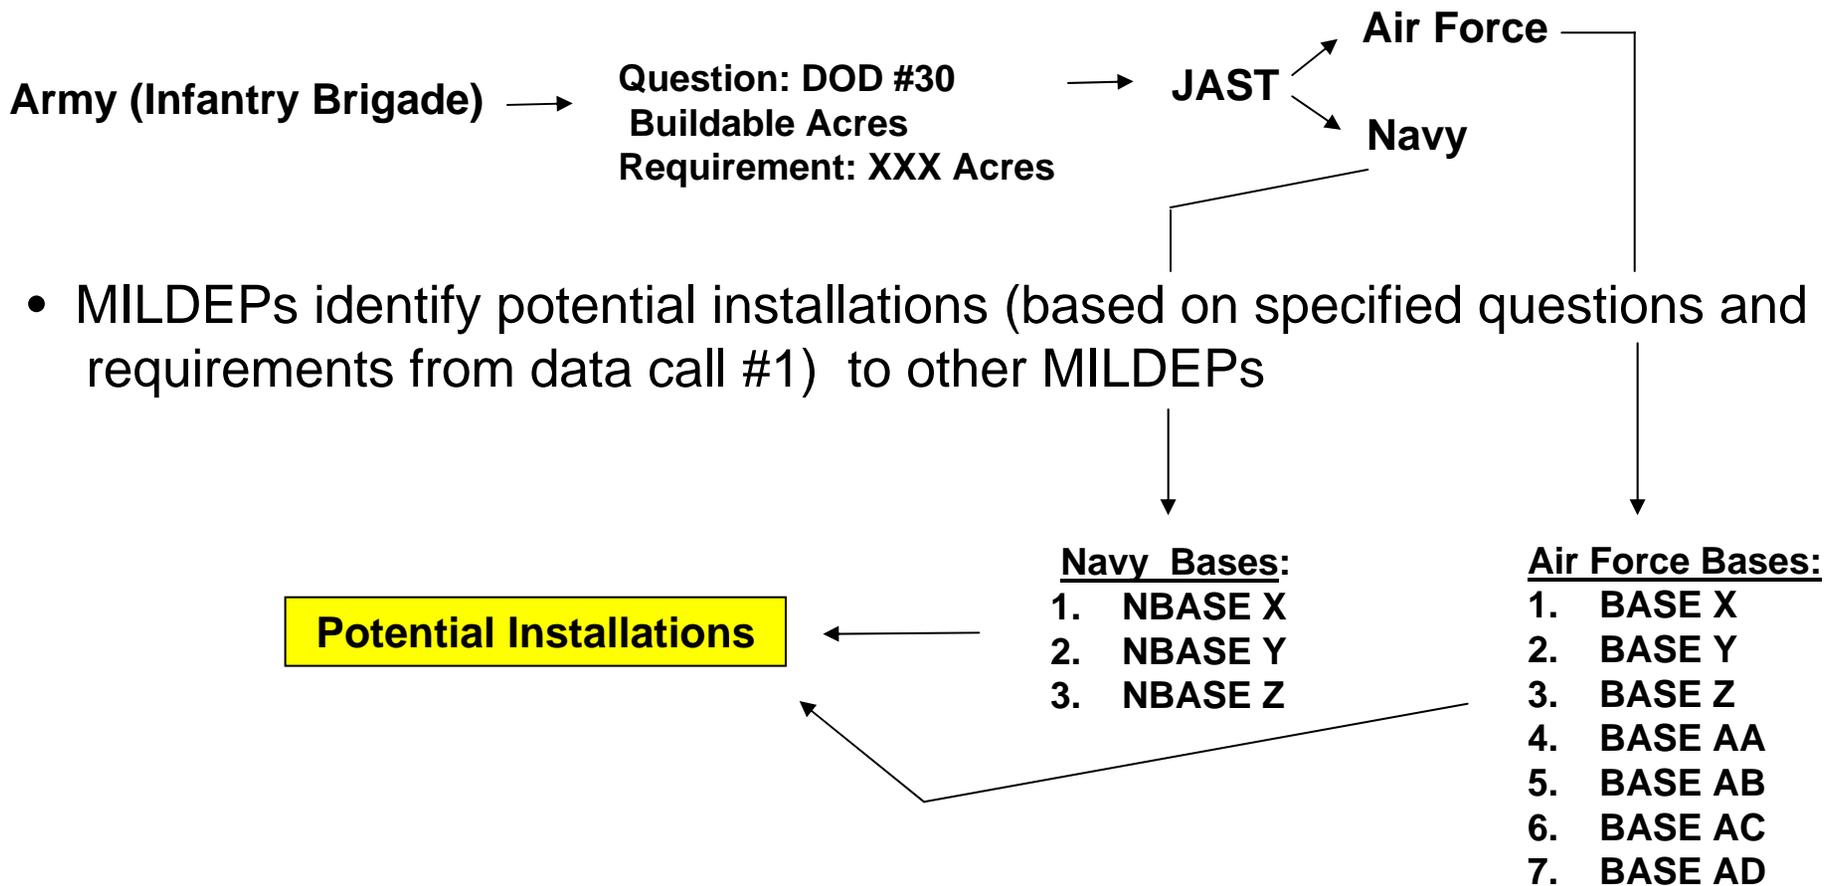

Example:

Army (Notional)

- Question: DOD #30 Buildable Acres
- Requirement XXX Acres

JAST Methodology

- MILDEPs pass Operational requirements through the JAST to sister services to establish potential receiving installations

JAST Methodology

- MILDEPs identify service specific MVA questions from data call #1 that must be addressed to sister services in data call #2

Examples:

USA (NOTIONAL)

- Question: DOD #55 General Instruction Facilities

USAF (NOTIONAL)

USN (NOTIONAL)

JAST Methodology

- Potential installations are asked full set of MVA questions in data call #2 plus any needed MILDEP specific questions from data call #1

Full set of Army MVA Questions -- What is the installation's Net Acreage Available for Ground Maneuver Training ?

MILDEP specific questions (data call #1) -- DOD #55 General Instruction Facilities

Potential Installations:

Army Posts:
ALL

Navy Bases:
1. NBASE X
2. NBASE Y
3. NBASE Z

Air Force Bases:
1. BASE X
2. BASE Y
3. BASE Z
4. BASE AA
5. BASE AB
6. BASE AC
7. BASE AD

JAST Methodology

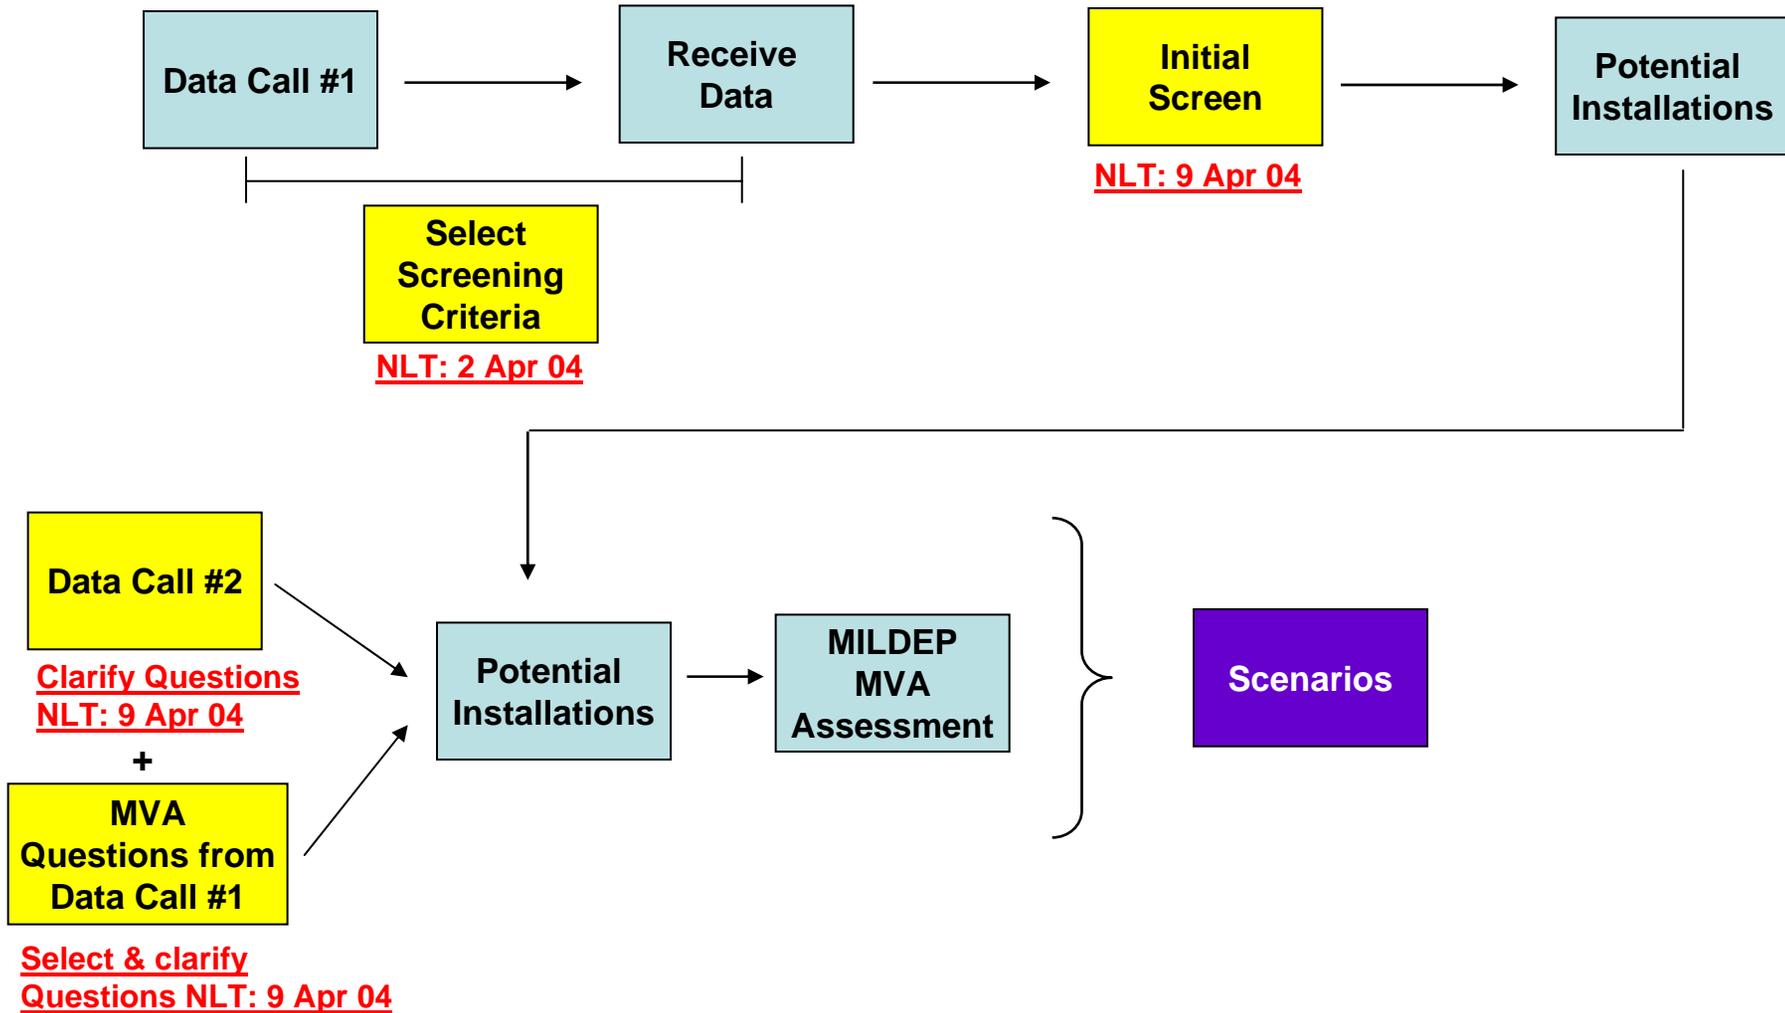

- At completion of Data Call #2, each MILDEP conducts its MVA and arrays its own installations with other services potential installations(1–N)

Full MVA Assessment:

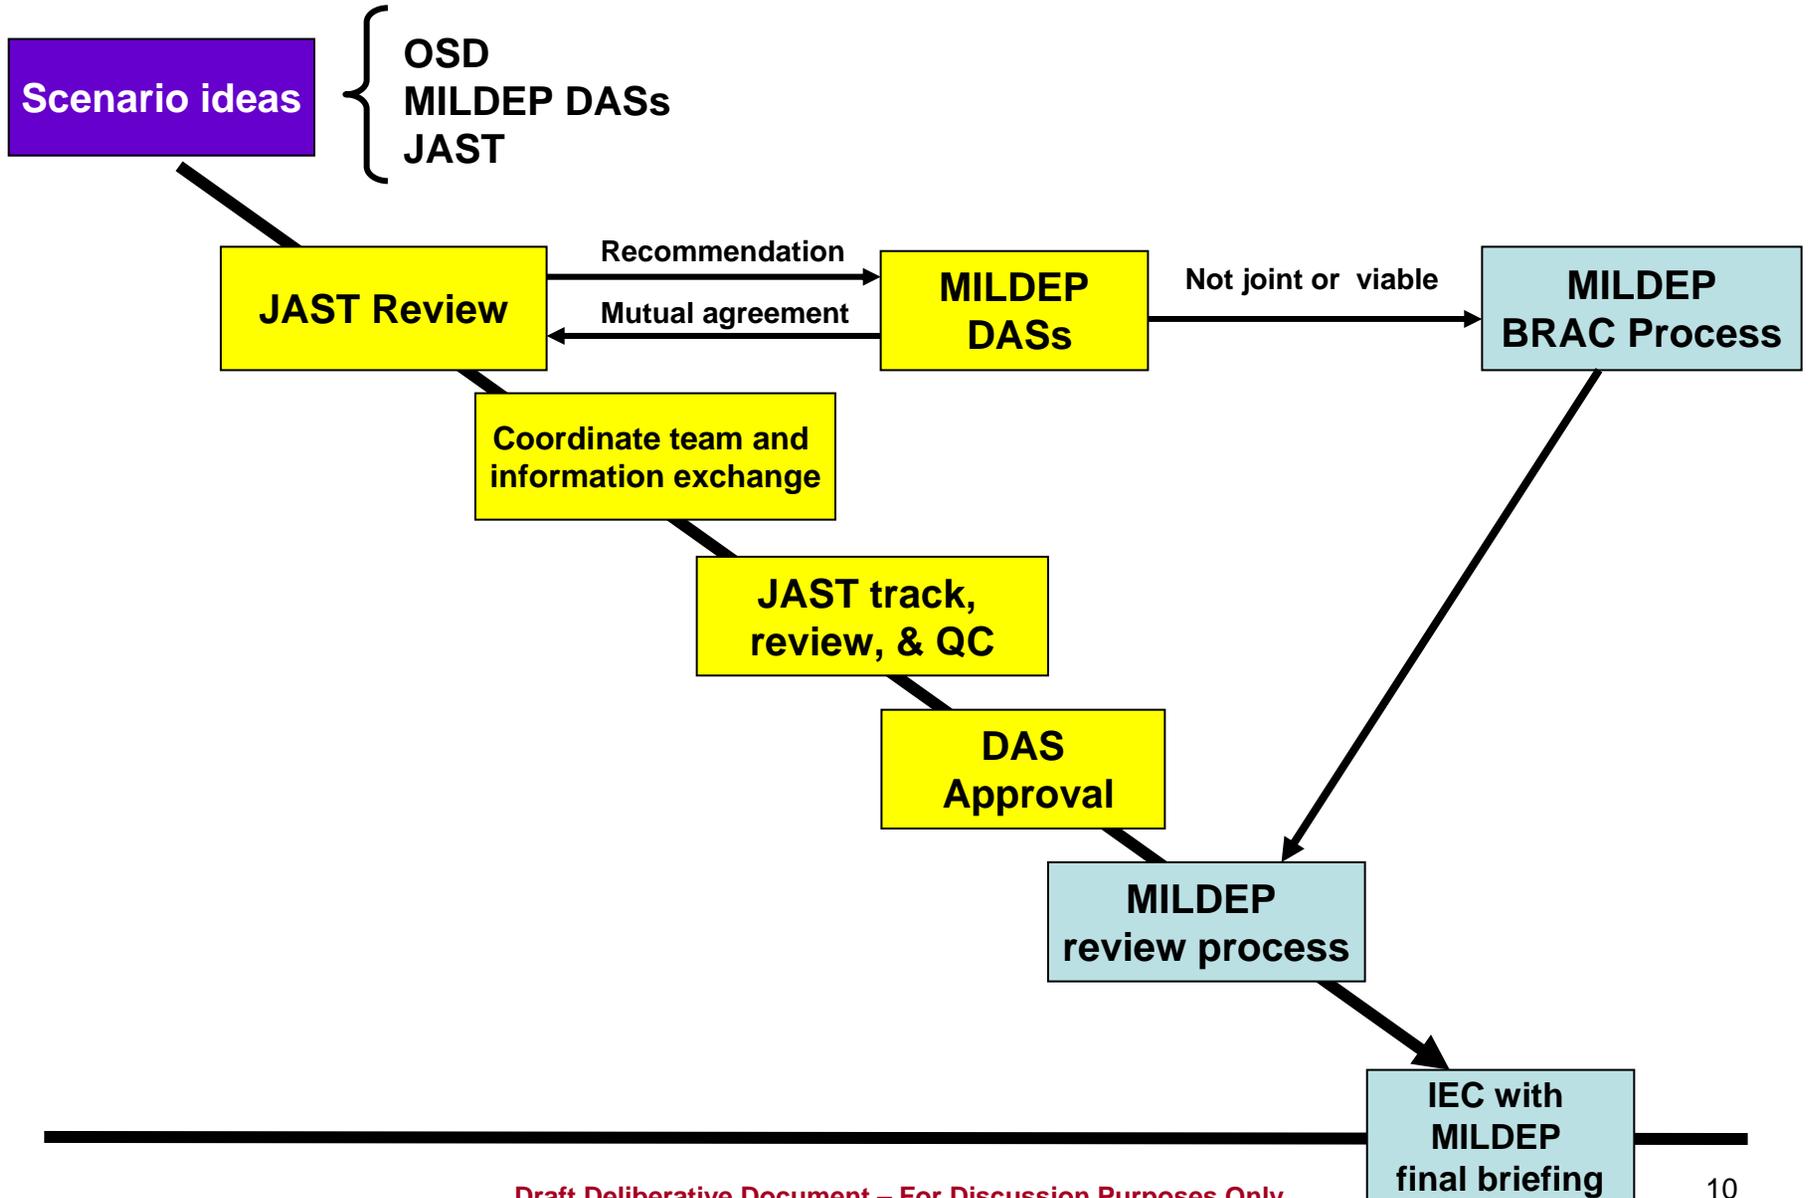

Army

1. POST X
 2. POST Y
 3. POST Z
 4. POST AA
 5. **BASE X**
 6. POST AB
 7. POST AC
 8. **BASE Y**
 9. POST AD
 10. **NBASE X**
 11. **BASE Z**
 12. **NBASE Y**
- N. POST XX
