*Dear Mr. Meyer:*

*I respectfully request a written response from the Department of Defense concerning the following requests:*

*Detroit Arsenal's military value score is significantly lower than Rock Island's. Why, in light of this fact, has DoD recommended realigning Rock Island's TACOM activities to Detroit Arsenal?*

*There are currently 1,129 TACOM personnel at Rock Island; however, according to the DoD recommendation, only 646 TACOM positions will move from Rock Island to Detroit. What will happen to the remaining 583 positions?*

*I would appreciate your response by July 13, 2005. Please provide a control number for this request and do not hesitate to contact me if I can provide further information concerning this request.*

*Yours sincerely,*

*Frank Cirillo*  
*Director*  
*Review & Analysis*

MEMORANDUM FOR: Army BRAC Office

SUBJECT: OSD BRAC Clearinghouse Tasker 0493C

1. In the letter attached to the OSD BRAC e-mail inquiry of July 8, 2005 (attached), Mr. Cirillo asks two questions.

- a. Why are TACOM personnel being realigned from Rock Island to Detroit Arsenal even though Detroit Arsenal's military value (MV) score is lower than Rock Island's?

TACOM personnel are being realigned from Rock Island to Detroit Arsenal as a result of an Army initiative to establish three life cycle centers of excellence. Upon the request by the Army and the direction of the Infrastructure Steering Group, the movement of TACOM's Inventory Control Point/Integrated Materiel Management Center (ICP/IMMC) personnel from Rock Island to Detroit was incorporated into the S&S JCSG recommendation "Depot Level Reparable Procurement Management Consolidation" as noted on page 47 of the *2005 Base Closure and Realignment Report, Volume IX*.

- b. What will happen to the 583 TACOM positions that will remain at Rock Island after the realignment to Detroit?

The S&S JCSG recommendation only effects the positions directly associated with the ICP/IMMC operation as reported in the Army's certified response to the S&S data call received on May 5, 2005. It does not address any other personnel, i.e. the 583 TACOM positions that will remain at Rock Island.

2. I am hopeful that you will find this information helpful. Thank you for your interest in our effort in support of the 2005 Base Realignment and Closure effort.

LOUIS J. NEELEY

Col, USAF

Executive Secretary,

Supply and Storage

Joint Cross-Service Group

Coordination: S&S JCSG Army Rep   
S&S JCSG Data Team Rep 

Attachment: E-Mail Inquiry dated July 5, 2005 (including the letter from Mr. Cirillo)

## BRAC 2005 - Query Response Manager

### Response to 0437

**Question:**

I respectfully request a written response from the Department of Defense concerning the following requests:

Detroit Arsenal's military value score is significantly lower than Rock Island's. Why, in light of this fact, has DoD recommended realigning Rock Island's TACOM activities to Detroit Arsenal?

There are currently 1,129 TACOM personnel at Rock Island; however, according to the DoD recommendation, only 646 TACOM positions will move from Rock Island to Detroit. What will happen to the remaining 583 positions?

**Answer:**

Question

Detroit Arsenal's military value score is significantly lower than Rock Island's. Why, in light of this fact, has DoD recommended realigning Rock Island's TACOM activities to Detroit Arsenal?

Answer

TACOM personnel are being realigned from Rock Island to Detroit Arsenal as a result of an initiative to establish three life cycle centers of excellence. At the direction of the Infrastructure Steering Group, the movement of TACOM's Inventory Control Point/Integrated Materiel Management Center (ICP/IMMC) personnel from Rock Island to Detroit was incorporated into the Supply and Storage JCSG recommendation "Depot Level Repairable Procurement Management Consolidation."

Question

There are currently 1,129 TACOM personnel at Rock Island; however, according to the DoD recommendation, only 646 TACOM positions will move from Rock Island to Detroit. What will happen to the remaining 583 positions?

Answer

As required during the scenario data call process, the Army Materiel Command submitted certified data regarding the ICP/IMMC functions performed at Rock Island, IL. The TACOM organization (a single organization/UIC) at Rock Island that performs these ICP/IMMC functions also performs integrally linked acquisition and supporting functions. Thus, this organization should be relocated in its entirety.

The BRAC language for this recommendation states, "Realign Rock Island Arsenal by relocating the remaining integrated materiel management, user, and related support functions to Detroit Arsenal, MI." It is the Army's contention that the BRAC language "... and related support functions.." includes the acquisition and other support functions performed by this organization and thus supports the relocation of the entire organization to Detroit Arsenal.
