Dear Commissioners:

I have no hope that this letter will help you decide to leave Cannon AFB Open, but thought I would give you my opinion. I served as a Sac bomber pilot, And various other functions, for twenty years in the Air Force. I will probably go On to my reward soon, but I can't believe how this country has not kept faith With those who have served in the past. First you, the government, failed to keep Your promise of lifetime health care, then you took Reese AFB, back in 1997, And now you are about to take the commissary and BX that is the closest to us. I know the country needs to save money. I pay taxes, and I have no problem with Doing what you need to conserve. How about not paying the corrupt UN any More money, or how about not sending foreign leaders of corrupt countries any More money? Just a thought,

Sincerely:
James A Snyder
Major Retired USAF
