BRAC Commission  
Attn: The Honorable Anthony J. Principi  
2521 South Clark Street, Suite 600  
Arlington, VA 22202

Dear Mr. Principi,

My name is Kathy Teston and I manage a business in Clovis, NM. The name of the business is Women's Medical Center and a large percentage of our business is treating Cannon Air Force Base dependents and active duty personnel. The loss of our base would impact our business in such a way that I will need to downsize my staff. I realize that downsizing is a part of America but when you downsize in a small town, the possibility of finding another job is slim to none.

I have included the following list of reasons why Cannon Air Force Base should not be closed in addition to the reason listed above:

- Cannon does not fit the criteria provided for base closure.
- The base has an abundance of air space and no encroachment issues. This provides for safer and more realistic training scenarios for pilots.
- Once the New Mexico Training Range Initiative is implemented, we will be able to offer pilots the ability to fly supersonic during training missions. This is a very important point, as it allows the Air Force to better train for real-life situations.
- The weather in Eastern New Mexico provides year round training ability.
- The Melrose bombing range is seconds from the end of the runway at Cannon. This allows pilots to get airborne, and immediately begin training operations over the bombing range, rather than spending all of their fuel just to get to the range, having one pass over, then returning to the base.
- Cannon has the space and facilities to accommodate joint war-fighting, training, and readiness as was evidenced by the recent joint training effort between Cannon and the US Navy.

- Cannon has ample space/ramp space to accommodate surge force requirements in training and emergency situations.
- The availability of air space and ideal flying weather makes Cannon the perfect candidate to support future training missions for the F-22, Joint Strike Fighter, and other military aircraft.
- Cannon has won countless awards, both on ACC level, Air Force and NAF levels, and national and STAT levels.
- The relationship between Cannon Air Force Base and the surrounding towns; Clovis, Portales, West Texas, and others, is unlike any other installation in the country.
- Clovis, Portales, Eastern New Mexico, West Texas (including Amarillo and Lubbock) are home to a large military retiree population. These people rely on Cannon Air Force base for healthcare, grocery shopping, and more. There is not another installation close by to serve our retired military.

Thank you for considering my request along with thousands of others you are bound to receive. The Clovis and Portales area will fight to keep the base open and I just hope our requests are taken seriously instead of my letter going into a trash can in Virginia. We pull together in times of hardship and we will demonstrate our united front when you come to town to inspect our base.

Sincerely,

A handwritten signature in cursive script that reads "Kathy Teston". The signature is written in black ink and is positioned below the word "Sincerely,".
