Arlington, VA 22202

Re: Cannon Air Force Base, Clovis, New Mexico

Dear General Newton:

Thank you in advance for this opportunity to share my feelings in regards to the placement of Cannon Air Force Base on the BRAC closure list. I know that you are quite overwhelmed at this point with various information and data which has to be reviewed for you to fulfill your duties as a commission member. I also appreciate all of the time and effort you are putting forth in order to perform your commission duties.

First of all, I would like to give you some of my background information. I am forty-three and have lived in Clovis since I was two years old. My mother and father are both originally from Hereford, Texas, approximately 50 miles north-east of Clovis and my father's first job as a civil engineer from Texas Tech University was with the Washington D.C. Highway Department. My mom and dad lived Washington D.C. for two years where I was born and then my father had an opportunity to return to the High Plains area and work Civil Service at Cannon Air Force Base. My father worked at Cannon from 1963 to 1987 where he peaked out as Chief Deputy of Civil Engineering at Cannon. My father then went to Yokota A.F.B., Japan, Tindall in Florida and the Azores before retiring in 1998. When my parents left Clovis in 1987, to go to Yokota, I had just finished law school and had begun working for the firm for which I am now a partner.

This bit of my personal background is important because same shows how Cannon has played a vital role in the lives of many people, including myself. I had a chance back in 1998 to go back to the Arlington, Virginia and Washington, D.C. area and I can quite honestly say that had I been raised in that area versus here on the High Plains, I never would have been exposed to or found

such a great love for the outdoors. Growing up here on the High Plains versus the Washington, D.C. metropolitan area allowed me to hunt and fish and learn much about the outdoors, even going so far as receiving an undergraduate degree in agricultural economics before attending law school. Without the outdoors, I hate to think what my life would be like. I am so thankful that Cannon gave myself and my family the opportunity to grow up in the Clovis area.

Next, I have the utmost confidence that you will fulfill all of your duties as a BRAC commissioner and will lawfully weigh all the criteria and give consideration to all of the factors. I am also confident that Cannon will be recommended for removal from the BRAC list after you lawfully discharge your duties as a BRAC commissioner. The military value of Cannon, by looking at the past history of Cannon and its involvement with past war time and peacekeeping duties speaks for itself. However, I challenge you to find any other major Air Force Base which has a better combination of flight weather, great airspace, little electromagnetic interference, great air traffic control and suitability for interservice training. Next, in regards to the encroachment issue, we do not have such an encroachment issue here in the Clovis, New Mexico area and to date whenever the Pentagon has asked for things to occur at Cannon Air Force Base, the community and the Committee of Fifty have come through with each and every request made. The ability for pilots at Cannon to pull up their landing gear and practically begin training immediately thereafter is of great value to our military, not just Cannon, but other bases as well. A sub-sonic fly zone is all but achieved and should be factored into the BRAC review. Further, there will be a huge economic impact on the local community and a great cost expense in regards to the recent privatization of housing for Cannon personnel and also with the relocation expense of the equipment and personnel.

Thank you for your kind consideration of my letter and I look forward to hearing your commission's recommendation that Cannon be removed from the BRAC closure list. Please contact me if you have any questions or if there are any other matters which you would like any input in order for you to fulfill your duties as a BRAC Commission member.

Sincerely,

MARION TY RUTTER

BRAC Commission
The Honorable James H. Bilbray
2521 South Clark Street Suite 600
Arlington, VA 22202

Re: Cannon Air Force Base, Clovis, New Mexico

Dear Mr. Bilbray:

Thank you in advance for this opportunity to share my feelings in regards to the placement of Cannon Air Force Base on the BRAC closure list. I know that you are quite overwhelmed at this point with various information and data which has to be reviewed for you to fulfill your duties as a commission member. I also appreciate all of the time and effort you are putting forth in order to perform your commission duties.

First of all, I would like to give you some of my background information. I am forty-three and have lived in Clovis since I was two years old. My mother and father are both originally from Hereford, Texas, approximately 50 miles north-east of Clovis and my father's first job as a civil engineer from Texas Tech University was with the Washington D.C. Highway Department. My mom and dad lived Washington D.C. for two years where I was born and then my father had an opportunity to return to the High Plains area and work Civil Service at Cannon Air Force Base. My father worked at Cannon from 1963 to 1987 where he peaked out as Chief Deputy of Civil Engineering at Cannon. My father then went to Yokota A.F.B., Japan, Tindall in Florida and the Azores before retiring in 1998. When my parents left Clovis in 1987, to go to Yokota, I had just finished law school and had begun working for the firm for which I am now a partner.

This bit of my personal background is important because same shows how Cannon has played a vital role in the lives of many people, including myself. I had a chance back in 1998 to go back to the Arlington, Virginia and Washington, D.C. area and I can quite honestly say that had I been raised in that area versus here on the High Plains, I never would have been exposed to or found

BRAC Commission

such a great love for the outdoors. Growing up here on the High Plains versus the Washington, D.C. metropolitan area allowed me to hunt and fish and learn much about the outdoors, even going so far as receiving an undergraduate degree in agricultural economics before attending law school. Without the outdoors, I hate to think what my life would be like. I am so thankful that Cannon gave myself and my family the opportunity to grow up in the Clovis area.

Next, I have the utmost confidence that you will fulfill all of your duties as a BRAC commissioner and will lawfully weigh all the criteria and give consideration to all of the factors. I am also confident that Cannon will be recommended for removal from the BRAC list after you lawfully discharge your duties as a BRAC commissioner. The military value of Cannon, by looking at the past history of Cannon and its involvement with past war time and peacekeeping duties speaks for itself. However, I challenge you to find any other major Air Force Base which has a better combination of flight weather, great airspace, little electromagnetic interference, great air traffic control and suitability for interservice training. Next, in regards to the encroachment issue, we do not have such an encroachment issue here in the Clovis, New Mexico area and to date whenever the Pentagon has asked for things to occur at Cannon Air Force Base, the community and the Committee of Fifty have come through with each and every request made. The ability for pilots at Cannon to pull up their landing gear and practically begin training immediately thereafter is of great value to our military, not just Cannon, but other bases as well. A sub-sonic fly zone is all but achieved and should be factored into the BRAC review. Further, there will be a huge economic impact on the local community and a great cost expense in regards to the recent privatization of housing for Cannon personnel and also with the relocation expense of the equipment and personnel.

Thank you for your kind consideration of my letter and I look forward to hearing your commission's recommendation that Cannon be removed from the BRAC closure list. Please contact me if you have any questions or if there are any other matters which you would like any input in order for you to fulfill your duties as a BRAC Commission member.

Sincerely,

MARION TY RUTTER
