Wes Hood, Senior Analyst

***Tim Abrell, Senior Analyst**

MEETING SUMMARY: This was a meeting with the Army National Guard member of the RC-TAB team to discuss the process involved with the development of the RC transformation recommendations of the Army section.

Recommendations were developed as a ground up review of over 4000 properties in the Army Guard and Reserve in all 54 states and territories.

Jointness was a main focus. There were four regional conferences with commanders, operations, force structure, logistics, and facility staff.

After the regional conferences selected the site and developed the scenarios, the RC-PAT team reviewed them for compliance to criteria.

Each of the 39 participating TAGs signed a memo agreeing to the recommendation. Some TAGs did not participate. Various reasons were given: recruiting competition, demographic and geographic dispersion. Some states did not have any qualifying properties.
