Dear Mr. Gekner

It is important to keep this base open and the people and planes here. Most of these people just got here and they shouldn't have to move again so soon.

If planes would have to fly from other bases that is a waste of fuel when we have the planes already here.

I hope that you will help to convince the others that the people and planes should stay here. I hope that you will do the right thing.

Thank you.

Michael Juss
