MEMORANDUM OF MEETING

DATE: August 2, 2005

TIME: 1:00 PM

MEETING WITH: SASC Staffers

SUBJECT: July 29th Senator Ensign Letter regarding Section 2902 *ex parte* Review

PARTICIPANTS:

Lucian Niemeyer - SASC Majority Professional Staff
Mike McCord - SASC Minority Professional Staff
Alison Brill - SASC Staff Assistant
Regina Dubey - SASC Research Assistant
D Griser - Military Legislative Assistant (Ensign)
Alexis Bayer - Legislative Aide (Ensign)

COMMISSION STAFF:

Charles Battaglia, Executive Director
David Hague, General Counsel
Dan Cowhig, Deputy General Counsel
Christine Hill, Director of Legislative and Intergovernmental Affairs
Frank Cirillo, Director of Review & Analysis *
Bob Cook, Interagency Issues Team Leader

* Denotes individual responsible for completing the memorandum

MEETING SUMMARY:

SASC explanation and discussion was led by Lucian Niemeyer. He first commented favorably on the Commission web page as far as openness and availability of a record amount of data. He also commented favorably on the Commission staff interaction and tracking with the OSD Clearinghouse. On the other hand Lucian and other SASC representatives indicated they were knowledgeable of, and had presented to Senator Ensign, information indicating Commissioners and staff had engaged in undocumented communication with military officials who were personally and substantially involved in BRAC recommendations that conceivably could have influenced the Commissioners deliberative process. They noted that

the allegations and review should and would only be centered around the only deliberations held to date, those on July 19th leading up to the Commission consideration for additions to the Secretary of Defense list of Recommended Closures and Realignments. Lucien also asked we assure that any formal Memoranda of Meeting for Community visits not already contained within the e-library, be added to the e-library as soon as possible.

Mr. Cirillo stated that as a matter of practice, discussions with DoD officials were and will be conducted regularly as a matter of clarification of information formally presented to the Commission and/or to better understand the methodology and processes used by OSD in developing the recommendations. Mr. Cirillo noted this process of informal meetings has been established since before receipt of the recommendations. Mr. Cirillo pointed out that we did not have nor internally require formal documentation of these meetings or conversations but that we would provide a review of calendars to assure a record of occurrence of those meetings, attendees, dates and subject matter were available, as we certainly had nothing to hide. (This listing¹ and meeting calendar review² have since been completed and are attached.) We also stated that as an informal matter of policy, for any information presented by OSD during those meetings, copies were immediately put on public record and, further, if we requested information from the OSD attendees during the meetings, their replies were sent through the Clearinghouse process. A copy of the Latest Clearinghouse Tracker list³ was provided to Mr. Niemeyer – the latest version of which is also attached to this Memo)

Mr. Battaglia requested SASC provide the Commission the substance of the allegations so we could review and provide the specifics. Mr. Battaglia was emphatic and direct in emphasizing that although we fully understood the oversight needs, any major interruption in the intense and culminating efforts of the Commissioners and staff to finalize analysis, review of DoD Clearinghouse input and concentrate these last three weeks in preparation for the final deliberations could well cripple the entire purpose and intent of the Commission.

Mr. Niemeyer indicated he understood the concern but would prefer receiving our input by August 10th and upon receipt, proceed to assess if our list of activity met with their understanding of available allegations. Mr. Niemeyer reiterated that the current interest is solely those communications regarding and leading up to the Adds Hearing deliberations and the Committee hoped the issue of alleged *ex parte* communications would not result in exacerbating stated concerns by the Readiness and Management Subcommittee that might compromise their confidence of the openness and fairness of the Commission process.

Mr. Battaglia presented Mr. Niemeyer with the attached summary of how each of the twelve Additions for Consideration items were brought up for discussion. We also noted we would assure the Community Meeting Memoranda on the e-library would be reviewed for currency and that staff would query commissioners regarding any *ex parte* meetings or communication that might have occurred.

3 Attachments: Adds List Statements¹/OSD Meeting Summary²/ Clearing House Tracker³

**Brief Statement Regarding Development of the Adds List
as Contained in Commission July 1, 2005 Letter**

1. **MCRD San Diego, CA:** was considered at the request of a commissioner who wished to explore the redundant capacity in Marine Corps Recruiting Depots in order to relieve the congested location of the current site and to provide the local community the opportunity to expand the international airport and/or commercially develop scarce real estate.

2. **Naval Shipyard Pearl Harbor, HI:** was considered at the request of commissioners who expressed concern that a shipyard with apparent higher military value and efficiency was proposed for complete closure in place of Pearl Harbor.

3. **NAS Brunswick, ME:** was presented for consideration to allow a fuller exploration of options for reducing excess infrastructure. DOD minutes show that DON had proposed for complete closure but was overruled at a late IEG meeting with the rationale of providing unspecified strategic presence and surge capability.

4. **Navy Broadway Complex, CA:** was considered at the request of a commissioner who was familiar with the installation and the development enabling legislation dating to the late 1980's. This dialogue was openly discussed during the July 19, 2005 Adds Hearing.

5a. **NAS Oceana, VA:** was included in the Chairman's letter as part of the "Realignment of Master Jet Base" consideration and was considered for addition as a potential closure at the request of commissioners who from the initial (May 17, 2005) hearings questioned the state of encroachment and alternatives for Navy. CNO testified that Navy needed to move and that several options had been considered but that no suitable alternatives had been found. Commissioners felt that another exploration of alternatives was warranted.

5b. **Moody AFB, GA:** was included in the Chairman's letter as part of the "Realignment of Master Jet Base" consideration and was generated as a result of testimony between the Commission and the CNO and the Commission and the CSAF during the May 17th, 2005 Navy and Air Force portions of Commission Hearings following receipt of the Recommendations.

6. **Galena Airport FOL, AK:** was noted as a consideration by attending commissioners as a result of dialogue during the Eielson AFB Visit on June 15, 2005 noting rather substantial operating costs with little apparent Military Value. The Commission requested Community comment regarding the consideration for such consideration in the course of open testimony at the June 15th Alaska Regional Hearing.

7. **Pope AFB, NC:** was added for consideration as a result of dialogue with commissioners regarding review by Commission staff of the Air Force BCEG minutes

regarding last stage decisions leading to final OSD Recommendations indicating that Pope was a strong contender for full Closure up until the final decision.

8. **Grand Fork AFB, NC:** was added for consideration as a result of dialogue with commissioners regarding review by Commission staff of the Air Force BCEG minutes regarding last stage decisions leading to final OSD Recommendations indicating that Grand Forks was a strong contender for full Closure up until the final decision.

9. **Air National Guard:** This addition into the consideration listing was more a statement of concern than a consideration for addition as a result of ongoing dialogue among commissioners and staff. Additionally, it provided the Secretary of Defense an opportunity to suggest changes or additions to what was obviously a very controversial list should he choose to do so.

10. **Defense Finance and Accounting Service, Various Sites:** was added for consideration based upon information received by Commissioners from visiting the impacted DFAS installations, the Commission questioned the military value scoring system used to rank DFAS installations. The information used by the Commission to prepare analysis of this action came from several documents including: Base visit reports; Memorandum of meetings with community representatives; Information received from DoD Clearinghouse requests; Memorandum of meetings with DFAS representatives and Headquarters & Support Activities JCSG Volume VII Final BRAC 2005 Report.

11. **Professional Development Education, Various Sites:** was added for consideration as a result of an exhaustive staff study of the process by which the DoD Joint-Cross Service Education and Training committee evaluated their proposals was conducted led to the request of detailed information regarding this arena. An analysis of this information as well as dialogue with several commissioners led to the conclusion a potential add should be considered by Commissioners.

12. **Joint Medical Command Headquarters, Various Sites:** was added for consideration as a result of review and analysis of the information provided to the Commission that was used by the MJCSG to prepare analysis of a Joint Medical Command Headquarters came from: Comments received during an official Base Visit meeting regarding VA Leased Space on May 27, 2005 (attended by CODELs) and as presented by the DARPA representative; documents sourced from the DoD public reading room; responses from the OSD Clearinghouse; HSA JCSG Vol. VII Final BRAC Report 2005; and economic analysis provided by Commission staff on July 16, 2005.
