3. Status reports on the Defining the Universe and Joint Audit Planning Group were provided by Mrs. Davis and Mr. Ron Booth, respectively. Enclosure (2) is a working draft list of 955 Navy and Marine Corps activities from which the DON universe will be determined. The JAPG is also developing controls to ensure against IT threats.

4. Mrs. Davis presented enclosures (3) and (4) regarding procedures for providing Department of the Navy resource support to the JCSGs. The IAT has been reconfigured to mirror the JCSG construct. Regarding other administrative matters, the Secretary of the Navy Notice (SECNAVNOTE) on the BRAC procedures will be staffed out next week, and the Force Structure plan is in the Joint Chiefs of Staff (JCS) draft development phase with an interim due date of 1 October. The next IEG meeting is scheduled for 2 October 2003. The meeting adjourned at 1214.

MEMORANDUM FOR CHIEF OF NAVAL OPERATIONS
COMMANDANT OF THE MARINE CORPS

Subj: DEPARTMENT OF THE NAVY SUPPORT TO JOINT CROSS SERVICE GROUPS IN THE BASE REALIGNMENT AND CLOSURE (BRAC) PROCESS

The Department of Navy (DON) fully supports the Joint Cross Service Group (JCSG) analytical and deliberation process as the primary way to address common business oriented support functions for BRAC 2005. As we move forward with these efforts, we need to do so with the full participation and unity of effort of our Navy and Marine Corps team. The Department's focal point for these efforts is the Infrastructure Analysis Team (IAT), under the cognizance of the Deputy Assistant Secretary of the Navy, Infrastructure Strategy and Analysis (DASN IS&A).

I recognize that there have been numerous demands against your already limited resources to support the JCSGs. In order to ensure those resources are being utilized as efficiently and effectively as possible, all requests to provide support to the JCSGs, even for part-time or subject matter assistance, shall be directed to and managed by DASN IS&A. This will remove the direct burden from your staffs and ensure standardization and consistency in our approach. Attachment 1 provides guidance on submitting these requests.

Additionally, the IAT will be responsible for issuing data calls, collecting certified data, and certifying the responses to the JCSGs for all DON information. This process will ensure the questions are standardized, consistent, and that resulting data will meet the statutory data certification requirement.

Hansford T. Johnson
Secretary of the Navy
Acting
