Received

Dear Chairman Principi,

In watching and listening to the hearings on base closure now being conducted by your Commission, I have heard the testimony given by Peter Verga as he related the posture taken by DOD in support of the logistics Sec. Rumsfeld believes will protect all of regions of our nation as they propose closing Air National Guard bases. Recommendations by the Air Force and by Adm Keating that would close many ANG bases in the BRAC process are based upon flawed information they are using in their testimony.

I want to remind you of the testimony that was given to Congress when President Bush, Sec. Rice, Powell and Rumsfeld asked their approval to wage a war on Iraq. It turned out to be flawed and the facts given then were not accurate. Approval that is sought that is based upon the falsification of facts is deceit. Their alleged facts are without merit because the information given, as it was in 2003 is distorted to support an ill-conceived plan.

As is it now has becoming glaringly obvious, our venture into Iraq was ill planned, ill fought and now has no exit strategy. DOD was wrong. Those now presenting what they have been made to believe are justification for closing ANG and ARNG units are wrong in their calculations that would remove Guard facilities from many areas where they now perform an urgent and viable shield for our nation. By following the suggestions of the Air Force as related by Michael Dominguez, our nation will not be defended at the level they are now, and their ability to defend our nation will be abrogated by an agenda based upon ill-conceived military logistics. Their theories that are being used in Iraq are now proved to be harshly ill conceived. Our Army and Air Guard units provided the war fighters not available from the asset inventory of the regular Air Force and Regular Army.

Considering economic impact, lowered morale of our forces, and the recent performance of and the serious failings of the joint chiefs as they executed this war, you must reject the testimony of Keating, Dominguez and Vergo. I ask that you remove the Air National Guard facilities from the list you are now considering for closure.

EANGUS personnel are ready, willing and able to deliver appropriate and valid testimony to your commissioners. I urge that you bring them to your commission to provide more valid testimony than has been given by those supporting DOD recommendations. They can be reached at 800.234.3264. My direct phone number is 303.909.6369.

Respectfully,

A handwritten signature in black ink, appearing to read "Bernard S. Rogoff". The signature is fluid and cursive, with a large initial "B" and "R".
