**RECEIVED**

June 9, 2005

Honorable Anthony J. Principi, Chair  
BRAC Commission  
2521 South Clark Street  
Ste. 600  
Arlington, Virginia 220202

Mr. Chairman:

The New Mexico Municipal League's Board of Directors met on Saturday, June 4<sup>th</sup>, 2005 and the realignment of White Sands Missile Range (WSMR), Army Research Laboratory was an item for discussion on our agenda. The New Mexico Municipal League represents all 102 incorporated municipalities in New Mexico.

The association between the WSMR Army Research Laboratory and New Mexico State University's Physical Science Laboratory has established a long history of collaboration, development and testing of Department of Defense systems. Our municipal officials and the Cities of Las Cruces and Alamogordo are concerned with the potential loss of these types of jobs both in the professional and technical fields.

New Mexico municipalities, the university and the State have all made a great commitment to White Sands Missile Range and the Laboratory. The commitments, relationships and partnerships that have been forged between these entities have provided value to the accomplishment of the WSMR mission.

On behalf of all 102 municipalities in the State, the New Mexico Municipal League supports the retention of the WSMR Army Research Laboratory in maintaining or expanding its laboratory work. We in New Mexico are very proud to be part of the tradition and work of the WSMR and its mission. We respectfully request your favorable reconsideration in the retention of the Army Research Laboratory.

Sincerely,

A handwritten signature in black ink that reads "Carol Robertson Lopez".
