

We, the undersigned, strongly oppose the closure of the Niagara Falls Air Reserve Station, Niagara Falls, New York. The closure of this base would economically devastate the region, removing an estimated \$150 Million annually from the economy, and leaving 3000 full-time and part time employees without a job. The Reserve Station also sits BRAC Commission within close proximity to four area border crossing, and removing it would place an immense security burden on the already overworked local security agencies that would be forced to stretch their resources even further to protect our borders. Therefore, We JUL 14 2005 petition the Base Realignment and Closing Commission and the Department of Defense Received to seriously reconsider the potential closure of The Niagara Falls Air Reserve Station.

We, the undersigned, strongly oppose the closure of the Niagara Falls Air Reserve Station, Niagara Falls, New York. The closure of this base would economically devastate the region, removing an estimated \$150 Million annually from the economy, and leaving 3000 full-time and part time employees without a job. The Reserve Station also sits within close proximity to four area border crossing, and removing it would place an immense security burden on the already overworked local security agencies that would be forced to stretch their resources even further to protect our borders. Therefore, We petition the Base Realignment and Closing Commission and the Department of Defense to seriously reconsider the potential closure of The Niagara Falls Air Reserve Station.

We, the undersigned, strongly oppose the closure of the Niagara Falls Air Reserve Station, Niagara Falls, New York. The closure of this base would economically devastate the region, removing an estimated \$150 Million annually from the economy, and leaving 3000 full-time and part time employees without a job. The Reserve Station also sits within close proximity to four area border crossing, and removing it would place an immense security burden on the already overworked local security agencies that ~~the Base Realignment and Closing Commission~~ forced to stretch their resources even further to protect our borders. Therefore, We petition the Base Realignment and Closing Commission and the Department of Defense ~~to seriously reconsider the potential closure of The Niagara Falls Air Reserve Station.~~ JUL 1 4 2005

We, the undersigned, strongly oppose the closure of the Niagara Falls Air Reserve Station, Niagara Falls, New York. The closure of this base would economically devastate the region, removing an estimated \$150 Million annually from the economy, and leaving 3000 full-time and part time employees without a job. The Reserve Station also sits within close proximity to four area border crossing, and removing it would place an immense security burden on the already overworked local security agencies that would be forced to stretch their resources even further to protect our borders. Therefore, We petition the Base Realignment and Closing Commission and the Department of Defense to seriously reconsider the potential closure of The Niagara Falls Air Reserve Station.

Please help us save the Niagara Falls Air Force Base, by signing this petition. We need to send a message to the Department of Defense for putting our base on the closure list, and the BRAC commission to take us off of it! Many federal jobs and military careers will be ruined if the base closes. Thank you for your support!
