**Subject:** 21 NOV AND 12 DEC ISG MINUTES

Pete -- I have reviewed the ISG minutes and concur with Mike and Craig's comments. I also offer the following comments/thoughts:

21 Nov minutes:

Para. 5 (page 1) -- My notes indicate that the ISG asked the Joint Staff to come back in January to brief the final force structure plan after further (ongoing) coordination with the Services.

Para. 7 (page 2) -- During the discussion at the close of the meeting, Mr. DuBois also noted that discussions were underway with allies, and that decisions on overseas basing would be made by February. Do we want to include that for information?

12 Dec minutes:

Para. 2 (page 1) -- In addition to the selection criteria comment schedule, Pete also noted that the Army comments on the selection criteria would be addressed in implementation guidance from the ISG.

Para. 5 (page 1) -- On the Intel JCSG classification issue, I think the ISG was told Intel would return with (provide?) their approach for consideration/approval by the ISG.

Last page -- I don't know whether you want to include as a final item that Mr. Johnson delivered to Mr. DuBois a letter requesting designation of primary and secondary alternates to the DON ISG principals.
