**MILITARY AFFAIRS COUNCIL OF WESTERN PENNSYLVANIA
PIT • BRAC TASK FORCE**

**Letters From Concerned Citizens In Support Of
Pittsburgh Air Reserve Station, 99th RSC, and
Charles E. Kelly Support Facility**

DCN 5085

The Honorable Anthony J. Principi, Chairman
Defense Base Closure and Realignment Commission
2521 South Clark Street, Suite 600
Arlington, VA 22202

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Address: DONALD J. WALSH

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Clyde Marshall

Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Charles Briggs

July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

 Timothy O'Brien

The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, *ROBERT. IHRIG JR.*

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Rebecca Abbott

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E Kelly Support Facility.

Sincerely,

JOHN P. MARINO

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Re: Pittsburgh, Land and More

July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Maurice Erickson

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Bruce A. Cox

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Sandy L. Linn

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Hermetto J. Carroll

Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed!! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Lee Baker

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Re: Pittsburgh, Land and More

July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Stacey Shaban

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Address:

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Cornie Ruane

Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely, *Lisa Curtis*

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Kasjia Schilling

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Jon Violando

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Darius
Batchford

Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E Kelly Support Facility.

Sincerely,

Michael L Balog

Re: **PITTSBURGH, LAND & MORE**

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center - combining the 99th RSC and Charles E. Kelly Support Facility.

Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Re: **Pittsburgh, Land and More**

July 9, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renowned for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to be spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Re: PITTSBURGH, LAND & MORE

July 10, 2005

The 911th Airlift Wing is vital to our nation's defense, and in a strategic location for homeland security. Pittsburgh's renown for its medical community and an excellent recruiting area. The 911th can support additional aircraft right now. Land is not the issue! The four runways afford any and all aircraft ready accessibility. "If it can fly, it can land at Pittsburgh!" This cost-effective operation also hosts a variety of tenant functions which result in taxpayer savings.

The data used in analyzing this base's military value was flawed! Relocating these aircraft would not best serve our military defense posture, nor would it result in retaining the assigned, qualified personnel who have volunteered to serve. Additionally, more monies will have to spent at the gaining bases to support this. The 911th AW should not be closed! It should be considered for expansion as part of a Joint Readiness Regional Center -- combining the 99th RSC and Charles E. Kelly Support Facility.

Sincerely,

Thomas W. Albin
