CONCLUSIONS

- That the Army recommendations to disperse headquarters limits their ability to command and control---and at additional cost--- substantially deviates from DOD Criteria #3 and #4
- That the Army recommendation to disperse major headquarters whose synergy is critical to war planning and Reserve Component readiness substantially deviates from DOD Criteria #1
- That costs are understated in the Army's analysis and thus deviate from DOD Criteria # 5

The Case for Naval Air Station Atlanta

Presented by
Congressman Phil Gingrey and
Major General Larry Taylor, USMC, Ret.

State of Georgia BRAC Regional Hearing

Three Key Points

- Reserve combat readiness is about demographics
- The DoD numbers were flawed
- There are better alternatives

State of Georgia BRAE Regional Hearing

Demographics

- Atlanta has “superior demographics”
- What has changed?
- 40% of our warfighters deployed are from the reserve components

State of Georgia BRAC Regional Hearing

Flawed Numbers

- 307 fewer personnel would be eliminated due to closure
- Cost savings of \$35 million - \$25 million less than claimed by the COBRA model.
- NAS Atlanta Facility Condition Index = .7% (5% or lower considered excellent by Navy)

State of Georgia BRAC Regional Hearing

Jointness

- Efficient
- Effective
