June 5, 2005

To Retired Brig. Gen. Sue Ellen Turner, BRAC Commission Member,

As a Portales native and a young professional working in the corporate business world, I have found that many “facts” presented on paper do not reflect a true and accurate picture of the real situation. I feel such is the case with the proposed closing of **Cannon Air Force Base in Clovis, New Mexico.**

As one who must deal with those “facts on paper” in regard to the “real life” situation, I would like to request that each of the members of the BRAC Commission visit **Cannon Air Force Base** and it’s surrounding communities **in person** to gain a fuller and more accurate knowledge of the facts before reaching your final conclusions in regard to closing the base.

Respectfully Yours,

Richard D. Hood, Jr.
