Dear Brac Commission,

I am writing in regards to the Navy returning to Cecil Field in Jacksonville, Fl. We believe that our Mayor and Governor have misled you. The people living around Cecil Field are **VERY MUCH** opposed to the Navy's return. I am enclosing the newspaper article that appeared in Friday's Florida Times Union for you to see, as well as a copy of the Mayors letter. The maps that were presented to you are outdated. Development is totally encasing Cecil Field. Ground has been broken on Oak Leaf Plantation Parkway for a large shopping mall, numerous houses are being built, schools are fixing to start. We are in Duval County 1 mile from Cecil Field two housing developments are being built right now on our street with more to start soon at each end. Bent Creek on the side of us is built right up to Brannon Field Rd.

We have the same problems as Oceana.

I have asked for our Mayor John Peyton to stop this action before it goes any farther.

Waiting your reply.

Sincerely,

Sharon & Norman Boyett
