06072005

The Honorable Philip Coyle
BRAC Commission
2521 South Clark Street, Suite 600
Arlington, VA 22202

Dear Mr. Coyle:

With all due respect, I strongly believe the Air Force and Defense Department misapplied the criteria in assessing Cannon Air Force Base. Cannon AFB provides tremendous military value because it is a modern, cost-effective base with no encroachment and unrestricted airspace. Additionally, the New Mexico Training Range Initiative is virtually complete and will create a more expansive corridor for military planes to run training missions—key components for the Air Force of the 21st century. This information was not included in the analysis of Cannon AFB.

Cannon AFB has the space and facilities to accommodate joint war-fighting, training, and readiness as was evidenced by the recent joint training effort between Cannon AFB and the US Navy. The availability of air space and ideal flying weather makes Cannon AFB the perfect operation to support future training missions for the F-22, Joint Strike Fighter, and other military aircraft.

I must also ask you to please consider the extraordinary adverse economic impact facing the community of Clovis. At least 20 percent of the Clovis area economy will be affected should Cannon AFB close. This equals more than twice the percentage of adverse impact facing nearly every other local economy tied to a base that is on the BRAC list. Additionally, Portales is home to many active duty military and will take a hard hit economically as well. We are not Denver or San Diego; we do not have industry bumping into each other trying to come into our town.

The community has reached out and supported Cannon AFB like no other community over the last 50 years. We've done so financially, morally, spiritually and above all, consistently, and we are committed to maintaining and enhancing this partnership. I implore you to take advantage of our community's willingness to stand behind Cannon AFB and partner with them for future growth and expansion.

I respect the challenge set before you and members of the BRAC Commission and I thank you for your service. I believe after reviewing all the data about Cannon AFB, you will agree that its military value is of great magnitude and it plays a vital role in the defense of our nation.

Those are the facts but I cannot write this letter without noting the personal toll the loss of Cannon AFB will have on our community. Clovis has welcomed our military men and women with open arms. We have celebrated weddings, births and graduations with our Cannon families as we strive to be their home away from home. They have provided countless hours to volunteer at our human services agencies and schools. We have prayed for them when they deploy and rejoiced at their safe return home. We have worked alongside these men and women, invited them into our churches, our homes, and our lives and they have enriched our

community beyond measure. On a very personal note, TSgt. Victoria Miller and 2nd Lt. Kira Cooper are the coaches for our Clovis' Special Olympics Track and Field Team. We don't want to lose these amazing, compassionate ladies and others like them who are willing to work with special needs children in our community.

Thank you for taking time to read this letter. We look forward to welcoming members of your commission to our amazing community!

Sincerely,

A handwritten signature in cursive script that reads "Stephanie Spencer".
