# TABS Data Overview

Data support Team  
25 June 2004

# Learning Outcomes Desired

*At the Completion of This Block of Instruction, TABS Analysts Should Know:*

- The Status of Installation Data Calls.
- How to Gain Access to RPLANS, ASIP, and ISR.
- The Requirements for Certifying and Maintaining Other Source Data.
- Current Plans for Accessing the TABS Database

# Learning Outcomes Desired

*At the Completion of This Block of Instruction, TABS Analysts Should Know:*

- ✓ **The Status of Installation Data Calls.**
- How to Gain Access to RPLANS, ASIP, and ISR.
- The Requirements for Certifying and Maintaining Other Source Data.
- Current Plans for Accessing the TABS Database

# Status of Installation Data Calls

## *Data Call #1--Capacity*

- Original Data Call
  - 548 questions released on 5 Jan 04
  - Certified on 29 Mar 04
- Changes
  - 191 questions updated
  - Posted at J:Data Changes/Army DC1 Changes
- New Capacity Questions
  - H SA (23)
  - Medical (9)
  - Industrial (132)
  - E&T (69)
  - S&S (none to Army)

# Status of Installation Data Calls

## *Data Call #2—Military Value*

- Phase I (TABS Questions)
  - 35 questions released on 20 Apr 04
  - Certified on 7 Jun 04
- Phase II (JPAT 7, JCSG, JAST)

  - All accounts should be created by 2 July
  - Information about ISR contact Doug Macherey at (703) 377-0508

# Learning Outcomes Desired

*At the Completion of This Block of Instruction, TABS Analysts Should Know:*

- ✓ The Status of Installation Data Calls.
- ✓ How to Gain Access to RPLANS, ASIP, and ISR.
- ✓ The Requirements for Certifying and Maintaining Other Source Data.
- Current Plans for Accessing the TABS Database

# Requirements for Certifying “Other Source” Data

- Data from non-DoD sources (e.g. Census data)
  - Data certified as to the source by analyst
  - Hard copy of signed memo and data for file record
- Data provided from DoD databases
  - Data certified by the proponent of the database (GO level)
  - Hard copy of signed memo and database printout for record
- Data from DoD sources (e.g. DoD Pricing Guide)
  - Data certified by analyst
  - Hard copy of memo and data printout for record
- Derived data
  - Data that is converted into “derived data” through the application of a formula or inclusion in a matrix
  - Data certified by analyst
  - Hard copy of memo and computations for record

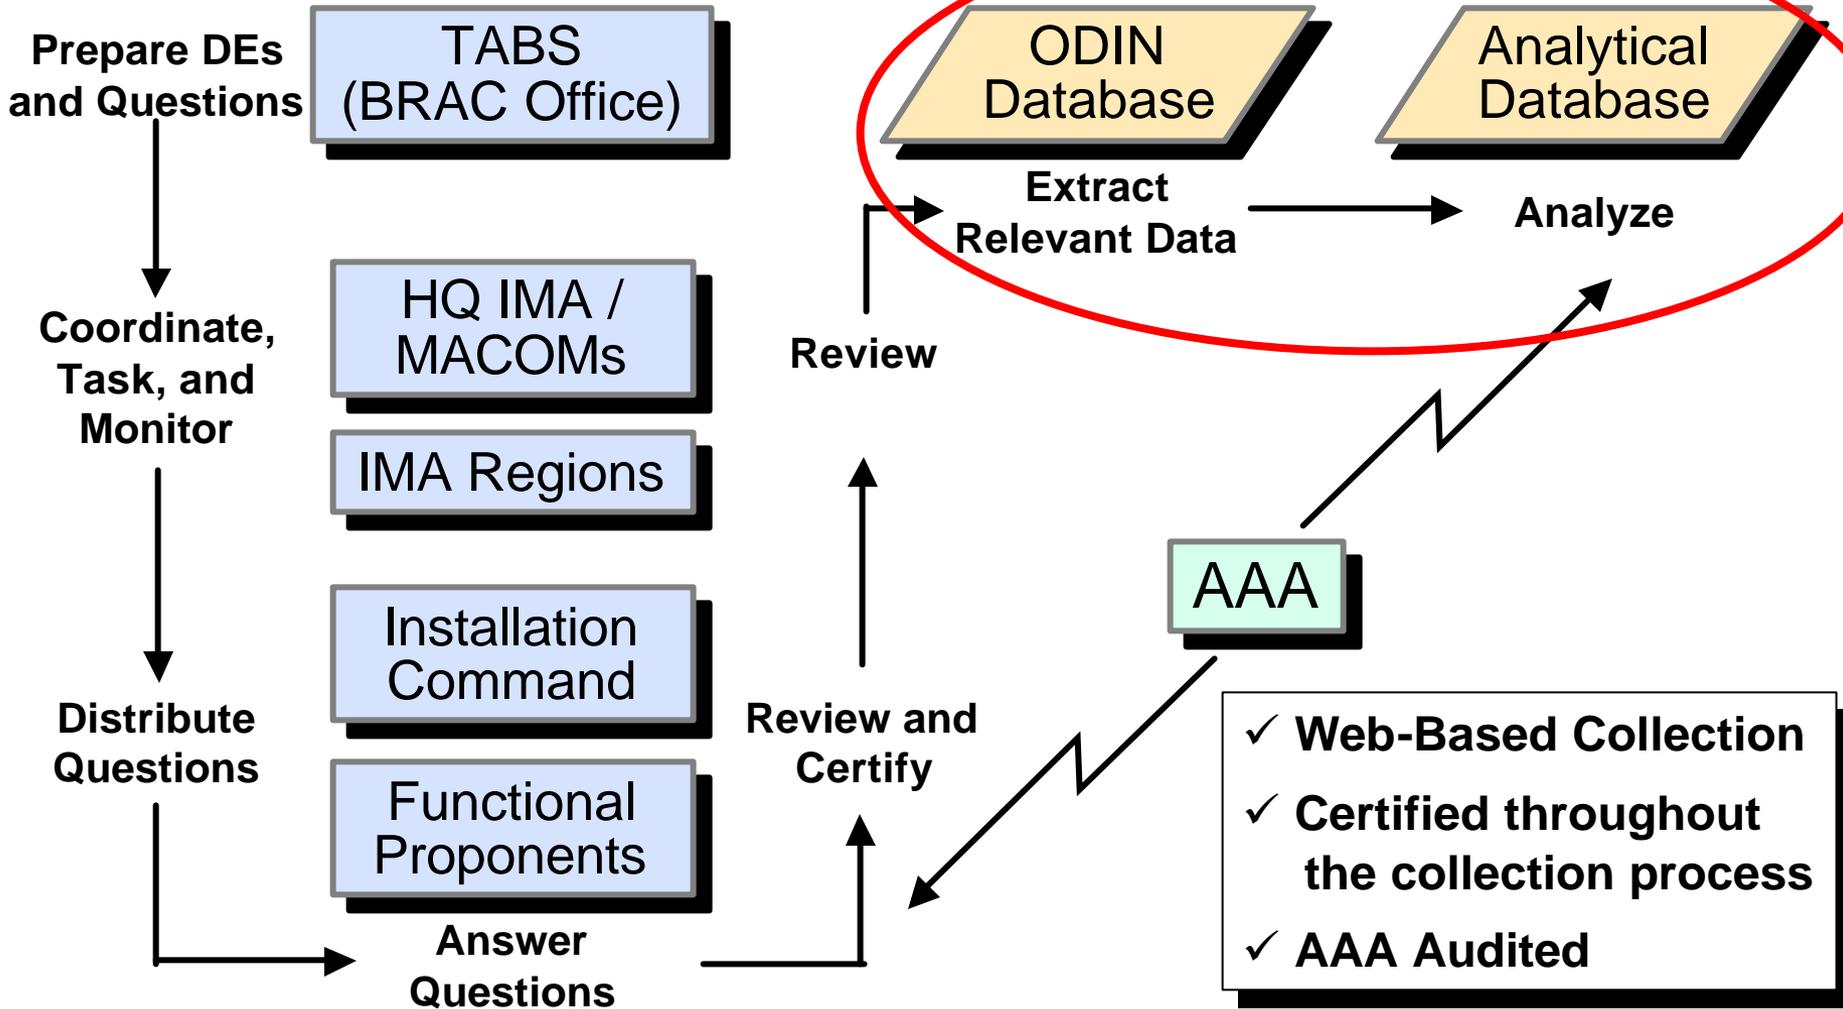

# Learning Outcomes Desired

*At the Completion of This Block of Instruction, TABS Analysts Should Know:*

- ✓ The Status of Installation Data Calls.
- ✓ How to Gain Access to RPLANS, ASIP, and ISR.
- ✓ The Requirements for Certifying and Maintaining Other Source Data.
- ✓ Current Plans for Accessing the TABS Database

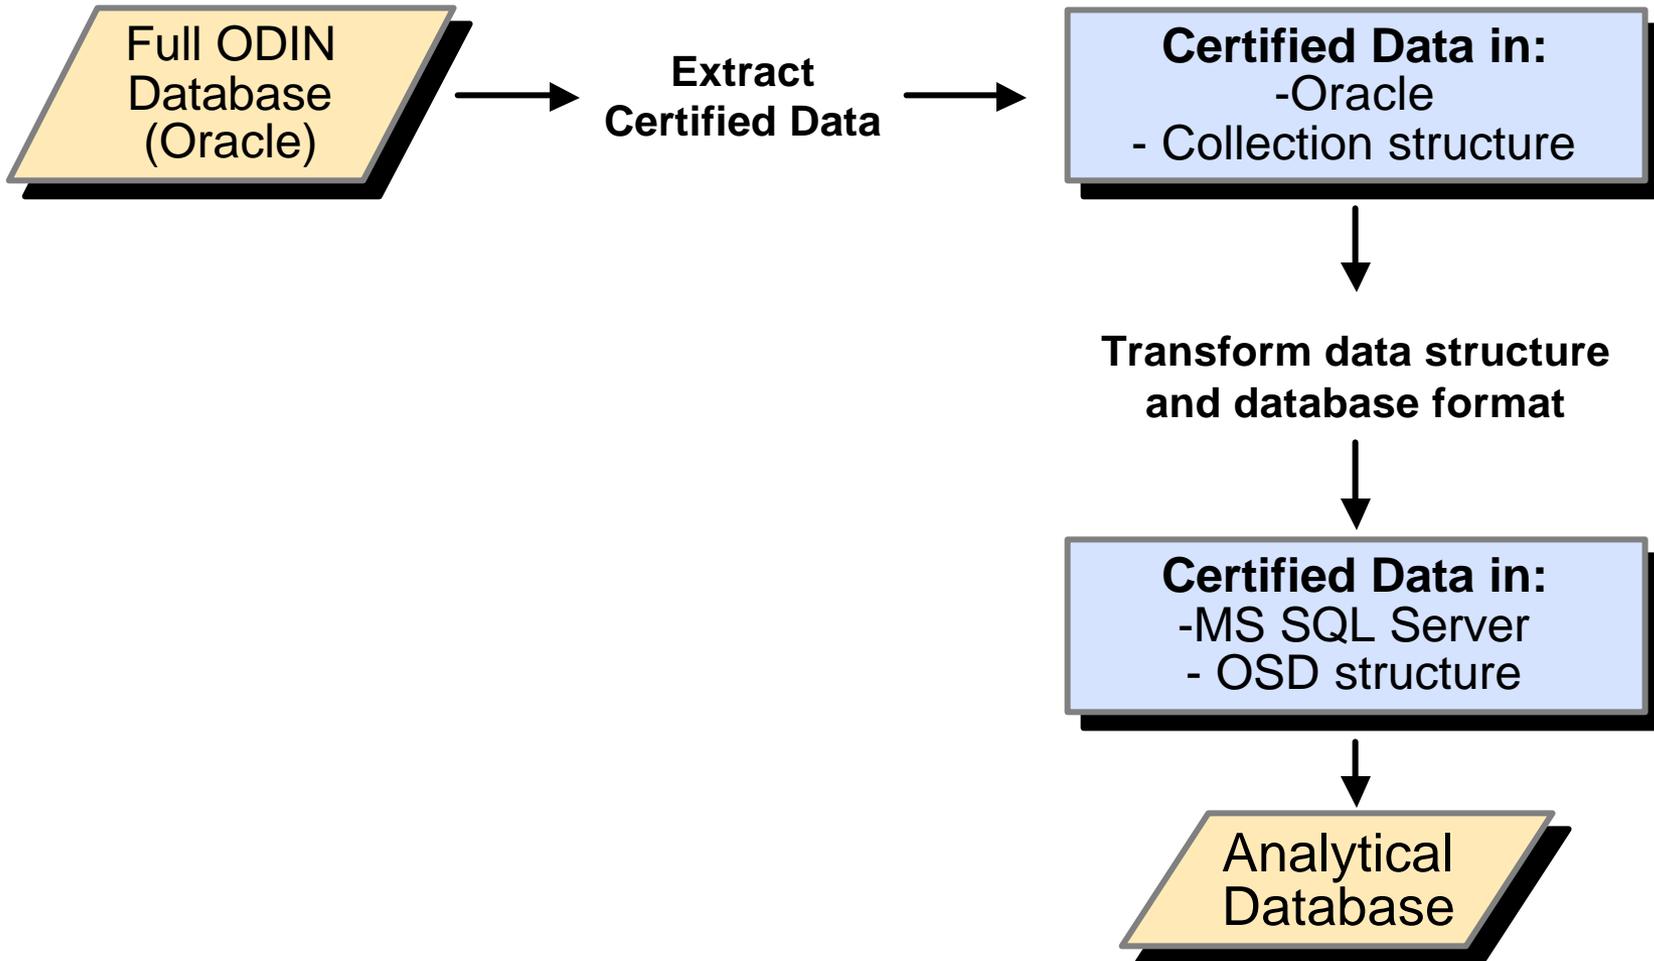

# The Army's Data Collection Process

*Transforming Through Base Realignment and Closure*

# Data Migration Process

*Transforming Through Base Realignment and Closure*

# Analytical Database Overview

- Relational database built on Microsoft SQL Server product suite
  - Hosted at IMCEN
  - Maintained by TABS with assistance from VISTA
- Accessibility
  - MS Access user interface
  - Only from inside local network
  - ARDA account holders
- Interface functionality
  - Update data based on field input
  - Create data file to export to OSD
  - View data for analysis
  - Export data to MS Excel

# Learning Outcomes Desired
