Why BRAC 2005?

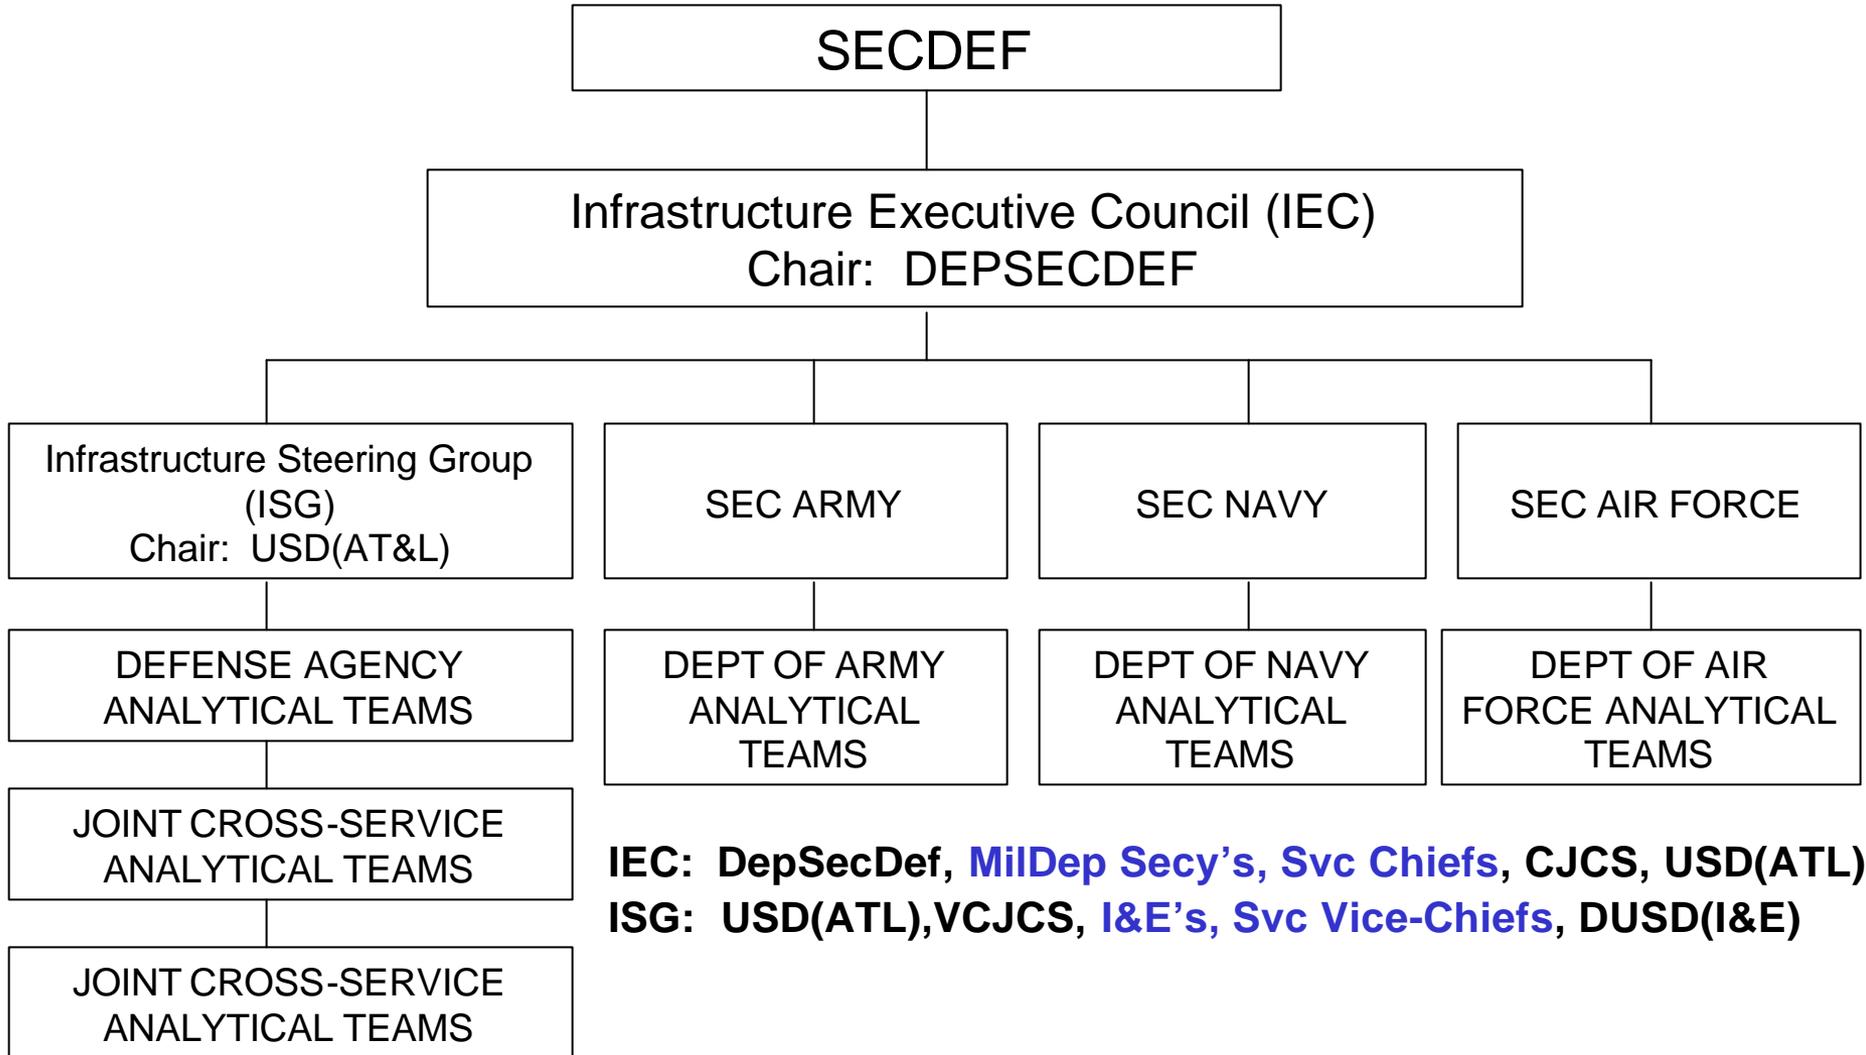

Assistant Secretary of the Army (Installations and Environment)

- The Army has successfully participated in four previous rounds (88, 91, 93, 95).
- BRAC is an **integral part of Army Transformation**; we must transform the installation infrastructure to maximize warfighting capability—new force structures require new base structures.
- BRAC is necessary to **eliminate excess infrastructure**, eliminate deteriorating infrastructure, and devote funds to enduring facilities.
- Key DoD goal: Consolidation and realignment of common business-oriented functions
- No other initiatives are effective substitutes for BRAC. OSD has set aside **\$10 billion** for BRAC 2005 investments.
