MEMORANDUM FOR OSD BRAC Clearinghouse

SUBJECT: OSD BRAC Clearinghouse Tasker C0919 - Capacity at Dayton DFAS

1. Reference e-mail from Ms. M. Wasleski, BRAC Commission Staff, 11 August 2005, subject as above.
2. Issues/Questions: The HAS JCSG Capacity Analysis indicates the current and maximum capacity at DFAS Dayton is 81,605 sq. ft. I have received information that was entered in at yesterday's hearing that the GSF at Dayton is 202,625 and USF is 141,838. Please explain the difference in these numbers.
3. Response: The HSA JCSG Capacity Analysis, based on FY03 data, does identify an administrative footprint of 81,605 USF for DFAS-Denver, Ohio. That information, as of year-end FY03, was provided and certified by DFAS. We are unable to explain the difference between the certified data provided by DFAS and the square footage data you received at a recent Commission hearing without identification of related source documentation.
4. Coordination: Mr. J. Chittick, DFAS, 12 August 05.
