Dear Defense Base Closure and Realignment Commission.

We know you have heard and seen all the charts and graphs of why the Portsmouth Navel Shipyard along with the other 3 navel shipyards have proven that there isn't any "excess capacity" in these 4 navel submarine facilities.

It appears that the people who issued the closure list "violated" their own criteria in putting Portsmouth Navel Shipyard on the closure list.

I know you have been reviewing all the facts and you have to make a decision. I am asking you to go by these facts alone and remove Portsmouth Navel Shipyard from the original list.

Thank you,  
*Lawrence W. Tacy*
