

## **Recommendation Supporting Information**

### **Realign Ft Wainwright by relocating the Cold Regions Test Center (CRTC) headquarters to Ft Greely**

#### **Competing Recommendations and Other Information:**

There are no known competing recommendations that could conflict with this recommendation.

#### **Force Structure Capabilities:**

This candidate recommendation considers essential manning, training, organizing, equipping, and sustaining requirements, as well as approved transformational initiatives to ensure the Army and Department of Defense have the capabilities necessary to support the force structure plan. This candidate recommendation considered the stationing requirements of effected units, probable end-strength, and anticipated funding levels listed in the force structure plan, as well as the configuration of existing facilities to determine actual unit and functional stationing requirements.

#### **MVA Results:**

Stationing these personnel closer to their primary work site will increase personnel safety created as these personnel avoid dangerous travel in winter time. An increase of the military value to test-mission execution will be obtained. This will increase the Army's ability to efficiently test and validate the adequacy of current and future Army acquisition systems in extreme cold weather environments existing throughout the world.

#### **Capacity Analysis Results:**

Recommendation takes advantage of existing housing at Ft Greely. Slight change to capacities at both locations in regards to housing and community support.
