Dear Mr. Principi, Ms. Turner, Mr. Bilbray, Mr. Coyle, Mr. Gehman, Mr. Hansen, Mr. Hill, Mr. Newton, & Mr. Skinner

I am a concerned citizen and family member of the Clovis/Portales/Cannon family in Curry County, New Mexico. I am writing you today to inform you that including Cannon Air Force Base on the BRAC list for closure has been a grave mistake. A mistake that I feel confident will be brought to light in your research, and a mistake that you will act upon by removing Cannon from the closure list. Above all reasons we may list as reasons to remove us from this list I want to point out that we, and Cannon personnel are family. When you talk of taking our family away it hurts the core of who we are, and hurts our heart.

Below I will point out ways our community has reached out and supported the base like no other community over the last 50 years. We've done so financially, morally, spiritually and above all, consistently. I have also listed reasons why we feel Cannon should be considered a viable and valuable resource to our national and global defense.

- Cannon **does not fit the criteria** provided for base closure.
- The base has an **abundance of air space and no encroachment issues**. This provides for safer and more realistic training scenarios for pilots.
- Once the **New Mexico Training Range Initiative** is implemented, we will be able to offer pilots the ability to fly supersonic during training missions. This is a very important point, as it allows the Air Force to better train for real-life situations.
- The **weather in Eastern New Mexico** provides year round training ability.
- The **Melrose bombing range is seconds from the end of the runway** at Cannon. This allows pilots to get airborne, and immediately begin training operations over the bombing range, rather than spending all of their fuel just to get to the range, having one pass over, then returning to the base.
- Cannon has the **space and facilities to accommodate** joint war-fighting, training, and readiness; as was evidenced by the recent joint training effort between Cannon and the US Navy.
- Cannon has **ample space/ramp space** to accommodate surge force requirements in training and emergency situations.
- The availability of air space and ideal flying weather makes Cannon the **perfect candidate to support future training missions** for the F-22, Joint Strike Fighter, and other military aircraft.
- Cannon has **won countless awards**, both on ACC level, Air Force and NAF levels, and national and STAT levels.

- **The relationship** between Cannon Air Force Base and the surrounding towns; Clovis, Portales, West Texas, and others, is unlike any other installation in the country.
- Clovis, Portales, Eastern New Mexico, West Texas (including Amarillo and Lubbock) are **home to a large military retiree population**. These people rely on Cannon Air Force base for healthcare, grocery shopping, and more. There is not another installation close by to serve our retired military.

Clovis has a strong 50-year relationship with Cannon and the military.

- In the early 90s, Curry County, in conjunction with the state of New Mexico, purchased air easements around Cannon Air Force base and **GAVE** them to the Air Force. This one done to protect that air space from encroachment and was an important issue for the Air Force.
- The local community purchased the land north of Cannon Air Force Base and **GAVE** it back to the Air Force for additional housing, now known as Chavez Manor.
- Within the last few years, our community purchased land west of Cannon and **GAVE** it back to the Air Force for the installation of instrument lighting on the alternate runway at the base.
- Leaders within our community spearheaded the effort to expand and convert the air space to supersonic capability through the New Mexico Training Range Initiative.

I am looking forward for your visit to our area so we can show you how valuable our relationship is with Cannon, as well as how valuable Cannon is to our country.

In summary, it comes down to two valued reasons why Cannon should **not** be closed:

- 1) Cannon is a valued current and future asset to our military forces and
- 2) Quite possibly the most important reason I write this note is that Cannon is our family, and has been for over 50 years. Please, we do not want to lose members of our family... please do not send our family away.

Sincerely,

Mark S. Anderson
