Comments:

Michael,

Thanks very much for meeting with us to discuss the NAS JRB Willow Grove recommendation for closure on Friday, June 24. We thought that the discussion was helpful, and we have redoubled our efforts to penetrate the data and look carefully for inconsistencies, etc.

To that end, I went to the BRAC Commission e-library website and downloaded the Departments Question and Response Access files over the weekend. In exploring the CAD and MAD files, I've discovered the so-called ORG Table that appears to be the Master listing of all installations which were queried and which responded. Unfortunately, I can't find any listing for Willow Grove in either of those two files, which suggests to me that their responses are absent from the databases.

I'm not asking for extra help, but am I missing something here? If you happen to know what Org Codes correspond to Willow Grove would you be willing to share them with me? It would be very helpful to getting my analysis started in the right direction. I can be reached by phone, FAX, and e-mail.

Sincerely,

Ed Ebenbach
