General Lloyd Newton
BRAC Commission
2521 S. Clark Street
Arlington, VA 22202

Dear Mr. Newton;

I am a small business employer located in Clovis, N.M. I am very concerned about the closing of Cannon Air Force Base, I am also extremely concerned as to what impact this may have on our community and also the smaller communities within our county, Cannon is not only the largest employer of our city and county, but has always been the economic backbone of these communities. I sincerely believe that once you come to Clovis and see the relationship between the base and the community and also see what impact the closing will have on us that you will reconsider your decision on this closing. I think with everything that is happening with the military at this time, it would be a bad decision to close Cannon.

I also have another concern, and that is I am a guardian of an employee of ENMRSH which is an organization that employs handicapped individuals within the community, it so happens that the base employs many of these individuals, if the base closes it not only has an economic impact on our community, but what about these unfortunate individuals that you are going to put out of work, their will not be enough job in the community to employ these individuals. I feel that you are making a decision that you feel is best for the county, but I also feel that when you come to our City, you will not only see the relationship between the base and the community and the impact this will have, but you will also see the importance of Cannon Air Force Base, and that you will reconsider your decision based on what you see.

Sincerely;

Chris Bryant
